

## Technical Data Sheet

### U-GRID-W150

Drainage grid

### DESCRIPTION

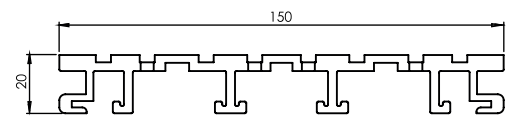

The drainage grid allows water to be efficiently drained from a surface, preventing build-up and damage to neighbouring structures.

### COMPOSITION

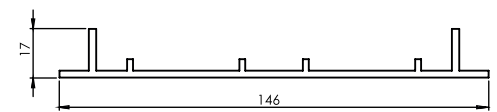

Material : **Aluminium**  
Paint : **Paint-free**

### CHARACTERISTICS

Width: **150 mm**  
Thickness: **22 mm**  
Length: **2 000 mm**  
Weight: **7,5 Kg**  
Colours: **Aluminium**  
Composition/nbr. Pcs: **2**

Top part (mm)

Bottom part (mm)

### PACKAGING

Sales unit: **Per unit**  
Packaging: **Cardboard packaging**

### APPLICATION

Drainage grids are an indispensable part of every decking project. They are designed to ensure effective drainage of rainwater, considerably extending the life of your outdoor project.

The grid can be mounted on the pedestal or joists and is easily screwed in place with U-BRS-VIS.  
Ideal for finishing off the edges of walls or windows.

### SAFETY INSTRUCTIONS

Buzon pedestals and accessories are designed to support raised floors used only by pedestrians. They cannot support or be subjected to moving or vibrating machinery and equipment. This includes cars, maintenance vehicles and similar equipment.
