Terrace Finishing Profile

DESCRIPTION

The terrace finishing profile on pedestals is a finishing element used to cover and protect the edges of a raised terrace made with adjustable pedestals.

COMPOSITION

Material : Aluminium
Paint : Matt powder coating

CHARACTERISTICS

Thickness: 2,5 mm
Height: 80 mm / 130 mm / 180 mm
Weight: 2,3 Kg / 3,2 Kg / 4 Kg
Length: 2 400 mm
Colours: Anthracite grey (RAL 7016)
Traffic grey A (RAL 7042)
Composition/nbr. Pieces: 2 (Profile and removable EPDM seal)

PACKAGING

Sales unit: Per unit
Nbr. pallet: 150 pcs
Pallet size: 100 x 240 x 80 cm

APPLICATION

This aluminium profile is fixed around the perimeter of the deck to hide the visible sides of the pedestals and deck boards or tiles. It is screwed onto Buzon pedestals or Buzon E-BRS joists.

As well as giving the terrace a clean, modern look, it contributes to safety by preventing the risk of falling or catching on the edges. The U-TFP also ensures greater durability by protecting the materials from the elements.

SAFETY INSTRUCTIONS

Buzon pedestals and accessories are designed to support raised floors used only by pedestrians. They cannot support or be subjected to moving or vibrating machinery and equipment. This includes cars, maintenance vehicles and similar equipment.
